FIGHTING IN THE VICINITY OF JUAREZ

(Continued from page one.)

ply. There is a small source of supply six miles from Bauche, where probably 200 men and horses might be watered but not a sufficient supply to furnish water for the army that the provisional president is supposed to be leading. There is also water at Rancho Flores to the west of Juarez and it may

cause the column to move in that direction."

Few Volunteers.

A force of 40 citizen soldiers, mounted and khaki clad, drew up in front of the roping ring headquarters of Gen. Navarro Saturday morning and reported for duty as scouts at large. These men are regularly paid men but are not a part of the military establishment.

There seems to be none of the desire to enlist as volunteers in Juarez that was apparent when the first siege occurred. Then the citizens generally volunteered and were prepared to assist in the defense of the town. Now the fiscal guards, the mounted police and the 40 paid volunteers are the only forces available.

Gen. Navarro, of his own initiative, sent requests to a number of the leading men of Juarez to volunteer in defending the town. Only two responded, it is said, and the remainder left imme-

diately for the American side. There is a dearth of young men in Juarez at the present time and a corresponding increase of Mexicans in the El Paso hotel lobbies and on the streets and in the parks.

Another Cavalry Troop.

An additional troop of cavalry has been ordered to El Paso in anticipation of trouble in Juarez. Troop B, of the Fourth cavalry, which has been stationed near Hachita, N. M., has been ordered to proceed to El Paso and join the headquarters troops of the Fourth. The new troop will arrive some time Sunday to strengthen the military garrison here.

To Protect El Pasoans.

Should the expected battle of Juarez occur, El Paso will practically be under martial law. No one will be permitted to go to the south side of town without a permit, and the street cars to Juarez will be stopped and on one

will be permitted to cross the bridge except those who have permits from Gen. Navarro. This will be a part of the precautions to prevent any unnecessary endangering of life along the border and to prevent the idly curious from flocking to the river bank to see the fight.

Col. A. C. Sharpe says that while he has received no instructions as to preventing people from getting within the firing zone he will probably order a line thrown across the town about Seventh street, and will prevent any crowds collecting near the river. His force, he says, is strong enough to establish this patrol in addition to the one along the border and he believes it would be a wise preventive measure.

DEADLOCK UNBROKEN.

Denver, Colo., April 15.—T. J. O'Donnell received the anti-Speer votes in today's ballot for United States senator. The Republicans voted for Valle. There was no election.

INSURRECTOS GIVE UP A STOLEN HORSE

Clint, Texas, April 15.—The horse which was stolen from the W. P. Skow ranch, two miles west of this place, several days ago, by insurgents, was found on the Mexican side about 15 miles below Fabens. In the camp of the insurgents by Mr. Skow and Paul Wuerchmidt, and after visiting a number of the captains and proving the horse was stolen from Mr. Skow it was agreed that it should be returned to the owner, who lost no time in crossing the river.

DEMAND MADE FOR NOGALES SURRENDER

Nogales, Ariz., April 15.—Maj. Lamm received a telegram at Nogales, Sonora, this morning, asking for the surrender of the town. He considered

it a joke. Several federal troops went out from Nogales, Mexico, this morning, it is said. Their destination is not known. Several hundred insurgents are said to be in the vicinity of Nogales and an attack is expected.

ROOSEVELT CLOSES HIS FAR WEST TOUR

Chicago, Ill., April 15.—Col. Roosevelt will this evening start on the last leg of his long western tour, which began nearly two months ago. He addressed the Wisconsin legislature at Madison today, and late this afternoon will come to this city, where he will rest a few hours before resuming his journey east.
